1. Access the 24/7 Truckin Mobile Application:

Start by launching the 24/7 Truckin mobile application on your device.

2. Navigate to the Driver Section:

From the application homepage, "locate" and "click" on the "Driver" section.

3. Add New Driver:

Within the "Drivers" section, "click" on the '+' plus sign icon situated in the top-right corner of the screen. This will initiate the process of "adding a new driver" to your company profile.

4. Enter Driver Details:

You will be redirected to a new screen titled "Add New Driver". Here, input all the required details of the driver, including their "name", "address", "contact information", and "license number".

5. Click on Add:

Once you have entered all the necessary details, "click" on the "Add" button to proceed. This action will add the driver to your company's existing list of drivers, making them available for assignment to trucks and load management.
